

HEALTHCARE WEBINAR

Grainger is proud to present Kym Orange, Aaron Rosenblatt & Shane Sullivan speaking about

TJC/CMS New Water Management Requirements for Healthcare Facilities

April 15, 2021

2 to 3 p.m. ET 1 to 2 p.m. CT Noon to 1 p.m. MT 11 a.m. to Noon PT

> ABOUT THIS WEBINAR

Waterborne disease from pathogen-colonized building water systems is significant and increasing, both in the U.S. and worldwide. Attention has been focused primarily on Legionella, but the disease burden from other pathogens also is considerable. In 2015, ASHRAE published Standard 188, the first industry consensus standard addressing the management of Legionella risk from building water systems. In 2017, CMS issued a memo clarifying the coverage of its requirements for the management of risk from Legionella and other waterborne pathogens. In 2020, ASHRAE issued Guideline 12-2020, Managing the Risk of Legionellosis Associated with Building Water Systems. In March 2021, TJC released its new water management requirements for healthcare facilities, with specific reference to ASHRAE 188. In this webinar, the presenters will review the new TJC/CMS requirements in the context of ASHRAE 188 and ASHRAE Guideline 12 and will discuss practical implications of the new requirements.

Speakers:

Kym Orange

Sr. Grainger Manager Healthcare Strategy & Offers

Kym is an accomplished healthcare strategy, marketing and sales professional with experience in strategic planning, employee development, sales and marketing, and business management.

Aaron Rosenblatt

Principal, Gordon & Rosenblatt

Aaron advises healthcare institutions on prevention of disease associated with building water systems. He is a voting member of the ASHRAE Standard 188, ASHRAE 514 and ASTM D-19 (Water) Committees. He is a graduate of Johns Hopkins.

Shane Sullivan

Vice President of Sales, Nephros, Inc., a Grainger Water Filtration Supplier

Shane is a reliable resource for water filtration in areas that include dialysis, infection prevention, military / emergency response and industrial applications. He has spent over twenty-five years serving healthcare, life-science and biopharmaceutical companies in the America's. He is currently serving as a board member for the Greater Los Angeles chapter of the Association of Professionals in Infection Control and a graduate of the University of Southern California (BS).
