ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Uniform Accessories

Blackhawk, Gould & Goodrich, Heros Pride, Propper

Grainger provides uniform accessories, ideal for security management and law enforcement personnel. Our accessories include everything you need to make wearing uniforms more comfortable and adjustable. Shop for elastic shirt stays, rubber shirt keepers, collar extenders, tie bars and more to look your best on the job. Most products are adjustable, putting the wearer in control. Look more professional with our uniform accessories.

Uniform Patches and Emblems

ASP, GH Armor, Heros Pride

Show off your patriotic side with our uniform patches and emblems that put Old Glory on display. Browse through other memorabilia that pays homage to the American military, law enforcement and other government agencies. See our emblems, patches and more. Our products are excellent for those in the government and military. These products add a layer of patriotism to any uniform. Shop Grainger today!

Uniforms

5.11 Tactical, Propper, ASP, First Tactical, Cobmex, Horace Small, Tru-Spec, Vertx, Flying Cross

Police and EMT uniforms are worn by law enforcement officers, firefighters, and emergency medical technicians. Jackets and parkas protect staff from rain and cold weather. Matched pants, shirts, and shorts help civilians identify law enforcement officers and public safety personnel.

Food Service Cookware and Preparation

Vollrath, Chicago Metallic, Crestware, Carlisle, Taylor, Phoenix, Rubbermaid

Keep back-up food prep, cookware and utensils on hand in your kitchen. Grainger offers basic food service necessities, like cutlery, and pots and pans, as well as more complex supplies like food safety sanitizing and training kits. Our selection of portable sinks is ideal for areas that need additional hand washing stations. Steam table pans and covers are also available and are a food service staple for many kitchen operations. Find your food service and hospitality supplies in one convenient place.

Food Service Appliances and Equipment

Procter-Silex, Waring Commercial, Bunn, Cambro, Vollrath, Crestware, Hamilton Beach

Stock your kitchen with reliable commercial kitchen equipment from Grainger. Grainger offers an extensive selection of blenders, grinders, food processing equipment, fryers and grills. We also carry supplies, like slicers and vacuum sealers, to help you prep and store food safely. Equip your kitchen with restaurant appliances you can trust.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Food Service Disposables and Dispensers

Grainger Approved, Dixie, Dart, Solo Cup, Pactiv, Daymark

Stock your dining area self-serve dispensers with plastic utensils, plates and cups. Organize condiments in self-serve centers or help control waste with condiment pumps. Keep napkin dispensers and plastic cutlery stocked during peak times. Cereal and snack dispensers are easy to use and refill. Make packing up carry-outs easier with disposable containers and food wrap supplies. Get food service and supplies to meet your hospitality needs in one place, Grainger.

Food Service Storage and Transport

Cambro, Rubbermaid, Cortech, New Age, Crestware

Help keep a clean and safe kitchen with the appropriate storage and food transport supplies. Countertop holding drawers and knife blocks help keep common tools or utensils safely accessible. Whether you need delivery carts, food carriers or warmers for a buffet, let Grainger be your single source for food service and hospitality needs.

Correctional Facility Furniture

Cortech, Grainger Approved

Furnish your correctional facility with rugged, durable furniture designed for mental health, juvenile, prison and correctional facilities. Suitable for high traffic and heavy use, correctional facility furniture can be mounted to the floor or wall for added safety. Shop Grainger for a selection of floor mounted stools, night stands, utility tables, shelving units and more.

Laundry Supplies and Equipment

Grainger Approved, Royal Basket Trucks, Andis, Honey-Can-Do, Conair, Singer

Laundry supplies and equipment help to sort, transport, clean, dry, and iron clothing items in professional laundry rooms and businesses. Laundry bags and baskets can be used to separate garments before washing. Drying racks and clothespins can be used to hang delicate items for air-drying.

Sports and Recreational Equipment

Spalding, Champion Sports, Promaxima

Sports equipment helps to keep gym or recreational facility patrons active, and can also serve as a great stress reliever. Exercise equipment, such as treadmills and exercise bikes, offer healthy cardio training solutions, while weight plates and dumbbell racks provide inmates with necessities for strength-training. Pool access equipment, such as handrails, stair rails, and ladders, can help get people safely in and out of therapeutic swimming pools and spas. Recreational games, such as air hockey tables, horseshoes, and dartboards, help to keep inmates entertained with friendly competition. Team sports equipment includes balls and nets for regulation game play, along with scoreboards and safety padding to help prevent injury if a player hits the wall during a game or practice.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Ballistic and Riot Shields](#)

United Shield, GH Armor, Paulson, Secpro

Whether you're controlling a crowd, engaging in tactical simulation or out in the field, ballistic and riot shields are your first line of defense. Used by tactical teams, ballistic protection shields help deflect bullets and other projectiles aimed at the carrier. Correctional professionals can find riot shields that are specially designed for crowd control situations.

[Ballistic Helmets](#)

Revision Military, United Shield

Browse Grainger for a range of Ballistic Helmets. Ballistic Helmets provide head protection in dangerous working environments, and are commonly used amongst correctional officers. When in the market for Ballistic Helmets, look to Grainger. Call or click today to place your order.

[Batons](#)

ASP, Guard Dog Security, Secpro

Grainger carries a wide variety of batons designed as impact tools that are ideal for correctional personnel. They offer an easy-to-carry expandable reach and many come with features such as rubberized grips. When it comes to your correctional needs, shop Grainger for steel batons available in a variety of lengths and diameters.

[Binoculars](#)

Barska, Bushnell, Carson, Northwest

Keep tabs on people or objects in the distance with a pair of powerful binoculars from Grainger. This selection includes high-quality field glasses with a wide range of magnification options for a variety of applications. If nighttime observation is in the mix, check out the night vision monoculars. Shop Grainger for all your binocular needs.

[Gas Mask Canisters](#)

3M, Avon Protection, Honeywell North, MSA, Scott Safety

Gas mask canisters remove poisonous chemicals and bacteria to provide breathable air.

[Gas Masks](#)

3M, Avon Protection, Honeywell North, MSA, Scott Safety

Gas masks protect the face and filter the air where there is exposure to harmful chemicals and toxins.

[Gun Holsters](#)

5.11 Tactical, Barska, Blackhawk, Gould & Goodrich, Uncle Mike's, Vertx

Before shopping at an expensive gun retailer, check out the incredible selection of durable gun holsters at Grainger. Find right, left and ambidextrous duty holsters that can fit popular handgun brands. Whether you're carrying for personal protection or correctional purposes, you're likely to find gun holsters that can serve your needs here. Shop Grainger today for duty holsters as high-quality and professional as the guns they carry!

GRAINGER.COM | 1.800.GRAINGER

GRAINGER
FOR THE ONES WHO GET IT DONE

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Handcuffs and Restraints](#)

ASP, Cortech, Peerless, Safariland

Grainger provides correctional agencies with a broad selection of handcuffs and restraints. Browse through handcuffs in different materials. We also offer leg irons with chains and cuffs for restraint beyond the hands. Our transport hoods feature bacteria-filtering fabric, so that no bacterium ever leaves the hood. Control wrists, arms and ankles with our DoubleCuf restraints.

[Laser Sights](#)

Barska, Steiner

Let Grainger help you take aim with a selection of laser sights designed for use on most firearms. Red beams are best used in low light applications where the target surface is within 20 feet of the user. Green beams are ideal for use in long range applications and bright lighting. When it comes to accessories for your firearms, shop Grainger.

[Night Vision Devices](#)

ATN, Bushnell, Carson

Turn to Grainger for a large selection of night vision devices suitable for a wide variety of applications. Choose from night vision goggles and monoculars featuring weather resistant construction and a range of magnification settings to meet your needs. Shop Grainger for night vision devices today!

[Rifle Scopes](#)

Barska, Steiner, Sig Sauer, Steiner

Grainger presents a wealth of rifle scopes to achieve a desirable view of your target, increasing your chances of hitting it. Regardless of the potency of your rifle, a rifle scope is immensely beneficial, as it allows you to clearly see your targets. Our line of rifle scopes will place a far-flung target into plain view, maximizing your chances of a hit without giving up your hiding spot and safe distance. Our scopes offer various magnifications to directly meet your magnifying needs. Browse through mild magnifications of 1-2x, or opt for stronger ones of up to 26 x. And shop Grainger for rifle scope accessories to enhance and protect your rifle scope.

[Rifle Stocks and Slings](#)

5.11 Tactical, Barska, Blackhawk, Butler Creek, Uncle Mike's

Help keep your team safe with rugged rifle stocks, slings, swivels and more from Grainger. This gear is designed to help officers perform their duties comfortably and quietly when faced with dangerous tactical situations. Shop Grainger today to find high-quality rifle stocks, durable slings and smooth-operating swivels for your team.

[Riot Gear](#)

Secpro, Damascus, Paulson, United Shield, GH Armor

Riot gear is designed to ensure safety of officers and tactical team members in critical situations.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Shooting Range Targets](#)

LE Targets

Grainger carries a large selection of shooting range targets to help train correctional officers. Choose from bulls eye and sighting targets, state specific, situational, combat and training targets and more to help you practice hand/eye coordination with your firearm. For your security management and law enforcement needs - shop Grainger for shooting range targets today.

[Thermal Imaging Cameras](#)

Avon Protection

Thermal imaging cameras can be an important element in any security system. Let Grainger show you how these specialized cameras can expand your view beyond the visible and help keep your home or business safe. Security imaging systems are a smart investment, giving you a wider view at a reasonable cost. Shop Grainger today for top-quality thermal imaging cameras to help keep properties secure and people safe.

[Training Weapons](#)

ASP

These weapon replicas are designed for use in training scenarios. Featuring solid polymer construction and attention to detail to add realism to your training programs.

[Weapon Cases and Bags](#)

5.11 Tactical, Barska, Blackhawk, Plano Molding, Plano Tactical, Propper, Uncle Mike's, Pelican

Grainger carries a variety of gun cases and bags, including rifle and pistol cases, to help meet your safe gun storage and transport needs. Whether you are looking for a hard case or soft bag for a rifle or pistol, Grainger offers many choices to help keep your weapon protected from the elements and safer and easier to carry. Hard cases and soft bags offer a variety of sizes to help you find the right one for your weapon. Shop Grainger for durable weapon cases and bags today!

[Weapon Storage Cabinets](#)

Stack-On, Sentinel

Sift through our various offerings of weapon storage cabinets. Our products include varieties of lockers and cabinets, designated to securely hold your arms and weaponry. Store pistols, carbines and rifles. Sturdy and strong, our cabinets can handle a multitude of weapons and are available in various sizes and drawer amounts. Shop Grainger today!

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Batteries & Battery Chargers

Duracell, Energizer, Rayovac, Dayton

Batteries and battery chargers provide power and portability to electrical devices and equipment. Original equipment manufacturer (OEM) batteries can replace manufacturer-specific batteries in compatible devices such as cordless tools, lanterns, and two-way radios. Disposable, household batteries are commonly used in low-drain devices such as flashlights, remote controls, clocks, and smoke detectors. High-performance batteries provide increased capacity to handle spikes in power demand from high-drain devices such as digital cameras, thermal imagers, digital audio, drones, video game controllers, GPS equipment, and keyless entry systems. Rechargeable batteries can be used repeatedly without the need for constant replacement. Battery chargers replenish the power of depleted rechargeable batteries.

Handheld Flashlights

Maglite, Streamlight, Pelican, Princeton Tec, Surefire, Fenix Lighting, Bright Star

Use handheld flashlights from Grainger for any number of security applications. Rugged, waterproof tactical flashlights can withstand hazardous situations. LED flashlights can offer long life and reliability, while xenon flashlights can be brighter and even more energy efficient. Choose durable, long-lasting handheld flashlights from Grainger to help provide light in dark situations.

Light Bulbs & Lamps

GE Lighting, Philips, Lumapro, Light Efficient Design, Shat-R-Shield

Light bulbs and lamps install into light fixtures to provide general area lighting or more focused lighting for specific applications. Standard light bulbs fit a large variety of light fixtures. Linear light bulbs are straight, tube-shaped bulbs with bases on both ends. U-bend light bulbs are tube-shaped linear bulbs that have been bent into a U shape to allow them to fit into fixtures where there is limited space for a bulb. Circline and plug-in (PL) bulbs plug into matching sockets on compatible light fixtures. Miniature light bulbs are small enough to fit in tight spaces and don't draw a lot of energy. Decorative bulbs have eye-catching shapes, colors, and other features. Spot, flood, and reflector light bulbs and lamps direct light through the top of the bulb to increase the bulb's light output and shape the beam of light.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Outdoor Lighting](#)

Hubbell Lighting, Lithonia, Lumapro, GE Lighting, Cree

Outdoor lighting fixtures resist moisture and withstand weather exposure and temperature fluctuations to provide light outdoors or in partially exposed locations. Outdoor fixtures can supply general or targeted lighting on sidewalks, pathways, doorways, and other outdoor spaces to help deter crime and prevent accidents. Landscape lighting draws attention to building facades, gardens, decks, and other outdoor features. Area and roadway fixtures spread light onto roads and building grounds. Floodlights aim light onto parking lots, sports fields, and recreation areas.

[Ballasts & Drivers](#)

Advance, Lumapro, GE Lighting

Ballasts and drivers install into lighting fixtures to regulate current and voltage flowing to the fixtures' light bulbs or LED arrays. They protect light bulbs and LED arrays from damaging fluctuations in the power supply that can reduce the quality of the bulbs' and arrays' light output. Fluorescent ballasts and HID ballasts turn on fluorescent or HID light bulbs with an initial spike of high voltage and then regulate the current to the bulbs for as long as the fixture is turned on. LED drivers convert high-voltage alternating current (AC) into low-voltage direct current (DC) to power LED light bulbs and fixture arrays.

[Penlights and Inspection Lights](#)

Streamlight, EMI, Pelican, Maglite

Penlights are used by a variety of professionals from doctors to mechanics and correctional officers. Grainger carries penlights that offer a highly concentrated beam of light in a compact design ideal for a variety of tasks from checking pupil response to pinpointing security issues. When you need a bright, accurate, controllable light source, let Grainger help you find the right penlight for the job.

[Spotlights](#)

Streamlight, Pelican, Brinkmann, Princeton Tec, KH Industries

Get yourself a high-quality spotlight from Grainger for those times when you need more light than a standard flashlight can provide. Tuck a spotlight with emergency flashers behind your truck seat for those unexpected visits to the side of the road. Look at spotlights with tempered glass lenses if you work in rugged environments. Shop at Grainger today and get a trustworthy spotlight that can provide the kind of light you need when you need it.

[Weapon Mounted Tactical Lights](#)

Streamlight, Sig Sauer, Steiner, Surefire

Weapon mounted flashlights, also known as weapon-mounted lights or WML's, are lightweight and compact so as not to throw off the balance of the pistol or long gun. They provide illumination for more accurate targeting and feature higher light output compared to older model lights.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Cleaning Chemicals

Diversey, Clorox, Windex, Pine Sol, Simple Green, Lysol, Tough Guy, 3M, Zep

Cleaning chemicals clean, degrease, sanitize, and disinfect to help maintain your facility. Non-solvent and solvent-based degreasers dissolve contaminants from parts. Disinfectants and sanitizers like bleach are cleaning agents that clear away germs. Adhesive removers remove sticky substances such as wood glue, grease, and tar. Dishwashing soaps, detergents, and rinses keep dishes and kitchen tools clean.

Cleaning Supplies

Tennant, Dayton, Rubbermaid, Hoover, Tough Guy, Sanitaire, 3M

Bathroom cleaning supplies and equipment are used to clean restrooms and keep them in working order. Cleaning tools like brushes, brooms, dusters, and squeegees have handles to make it easier to access hard-to-reach areas. Floor cleaning tools are used to dust, mop, and polish floors. Cleaning rags, shop towels, and dust cloths clean off grime, wipe away dust, and soak up spills. Window cleaning supplies remove debris and smudges from windows. Holders and dispensers like housekeeping carts, totes, and buckets are for carrying supplies and cleaning solutions from job to job.

Hand and Personal Care

OPS, GOJO, Scrubs, Georgia Pacific, Ability One, Purell, Hospeco, Dial, Tough Guy

Hand and personal care products are hygiene products that help encourage germ control and cleanliness in correctional facilities, hospitals, and workplaces. Facial, body, and hair care products like shampoo and body wash promote healthy hair and skin. Hand care products such as soap, cleaner, and sanitizer help support effective hand washing. Feminine care products include tampons, sanitary napkins, and other personal hygiene products. Incontinence supplies include disposable underpads, pull-on pants, and seat pads. Oral care products such as toothbrushes and dental floss help prevent tooth decay and gum disease.

Paper Products & Dispensers

Georgia Pacific, Tough Guy, Ability One, Hospeco

Paper products are disposable, sanitary items typically used in hotels, restaurants, medical facilities, and workplaces to encourage cleanliness. Door handle tissues provide a shield between hands and door handles while facial tissues are soft and used for more delicate cleaning. Toilet paper and toilet seat covers promote hygiene in restrooms and provide comfort to visitors. Paper towels are disposable, absorbent rolls and sheets used to clean up spills and wipe surfaces and equipment. Automatic and manual dispensers keep paper products handy while dispensing one sheet at a time to reduce waste.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Pressure Washers and Steam Cleaners](#)

Mi-T-M, Dayton, AR Blue Clean, Dewalt, Simpson, Delco

Pressure washers and steam cleaners refresh and rejuvenate surfaces with high-pressure jets of water or high-temperature steam. Pressure washers remove mud, dirt, and debris from sidewalks, driveways, decks, fences, stairs, and other surfaces. Electric pressure washers weigh less and are quieter than gas-powered washers. Gas-powered pressure washers allow greater mobility than electric pressure washers. Pressure washer surface cleaners and water brooms can clean floors, sidewalks, decks, patios, driveways, and parking lots. Steam cleaners sanitize hard surfaces on floors, machinery, and equipment using very little water and no chemicals.

[Waste, Recycling & Trash Supplies](#)

Tough Guy, Rubbermaid, Ability One, Hospeco, Glad

Waste, recycling, and trash supplies are used to collect, sort, and transport trash and recycling materials. Trash supplies include cans and receptacles to encourage people to sort and dispose of trash correctly and help reduce litter. Bin liners and trash bags help keep cans clean, make it easier for workers to collect trash, and keep trash contained. Compactors reduce the volume of collected trash so the trash takes up less space in dumpsters. Pickers, grabbers, and self-standing receptacles are used in litter collection tasks and landscaping operations.

[Disposable & Chemical Resistant Clothing](#)

Ansell, DuPont, Condor, International Enviroguard, 3M, Lakeland

Disposable clothing and chemical-resistant clothing items offer protection for employees working with liquids in laboratory and industrial settings. Disposable aprons, hoods, and gowns provide a barrier against light splashing of specific fluids, depending on material construction. Chemical-resistant clothing, such as gloves, hoods, aprons, eyewear, and lab clothes, can prevent direct contact with chemicals. Encapsulated chemical suits offer full-body protection from occupational hazards.

[Disposable Gloves](#)

Microflex, Ansell, Condor, Showa, Kimberly-Clark, MCR

Disposable gloves create a barrier between your hands and objects you are handling to keep hands clean and protected and keep oils and dirt on your hands from transferring to the objects. Single-use gloves are throw away after each task to prevent cross contamination. Thinner gloves offer higher dexterity and better touch sensitivity, while thicker offer more protection for hands. Single-use disposable gloves are worn in laboratories, food service, cleanrooms and sterile environments, and when cleaning or performing janitorial tasks.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

EMT and Rescue Supplies

Zoll, Physio Control, Honeywell, North American Rescue, EMI, Adventure Medical, Medsource, Defibtech

EMT and rescue supplies equip first responders with items needed for treating injuries, providing critical care, and transporting patients during medical emergencies. Aspirators and suction equipment extract bodily fluids, clear airways, and remove surgical fluids and body tissues. CPR devices and masks assist with breathing difficulties. Backboards, stretchers, and first-aid cots provide support to move injured people between locations. Cervical collars, head immobilizers, and splints stabilize body parts to prevent further injury. Defibrillators help resuscitate victims of cardiac arrest. EMT trauma kits provide a portable set of medical supplies and equipment. Patient transfer equipment includes belts, boards, and mats for supporting and securing people during transport.

First Aid and Wound Care

First Aid Only, Medique, Honeywell, Physicianscare, North American Rescue

First-aid and wound-care supplies provide relief for non-critical injuries and illnesses. Bandages, gauze, pads, and wraps cover wounds to keep out contaminants. Ice packs and thermal wraps alleviate muscle and joint pain. First-aid tape secures bandages and wound dressings. First-aid kits include supplies and medicine for attending to cuts, insect bites, burns, and other minor injuries. Nonprescription medications treat headaches, aches and pains, coughs, colds, and upset stomachs. Medicine vending machines allow employees to access over-the-counter medicines and first-aid supplies without having to leave the workplace. Topical ointments, creams, and antiseptics relieve pain, clean wounds, and treat burns, stings, and rashes.

General Purpose Gloves

Ansell, Showa, Condor, Hexarmor, Ironclad, MCR Safety, BDG

General purpose gloves keep hands clean and protect hands from minor abrasion in low-risk environments. Task and chore gloves are lightweight gloves used to keep hands clean and protect against scrapes and abrasions in low-risk environments. They are used in general warehouse and shipping tasks, landscaping, light assembly, general maintenance, and light automotive work. Coated knit general purpose gloves are more abrasion resistant than uncoated gloves. Leather general purpose gloves provide a balance of abrasion resistance and dexterity and are often used in construction, carpentry, general maintenance, and landscaping.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Hearing Protection

3M Peltor, Condor,
Honeywell Howard Leight,
Moldex

Hearing protection devices are worn on or in your ears to protect against hearing loss in environments with potentially hazardous noise levels. These protective ear muffs or ear plugs typically have a noise reduction rating (NRR) specifying the decibels (dB), or sound intensity, by which they reduce sound levels. OSHA standards call for hearing protectors that reduce exposure to below 85 dB over the course of an average 8-hour work shift to avoid noise-induced hearing loss (NIHL). Hearing protection is commonly used wherever loud machinery is being operated such as at factories, mills, mines, construction sites, landscaping operations, and medical testing facilities.

Tactical Gloves

Mechanixwear, Ironclad,
Ringers, Youngstown Glove,
Hexarmor

Tactical gloves are made of durable and flexible materials to protect workers who encounter a variety of hazards. Gloves with coatings and additional features (such as impact- and cut-resistance) protect against multiple hazards.

Respiratory Protection

Avon Protection, MSA,
Scott Safety, 3M, ILC Dover,
Honeywell North, Condor

Respiratory Protection equipment provides clean air for breathing and protects against harmful fumes or airborne contaminants. Airline filtration and CO monitors remove contaminants and check gas concentration in air supplies. Disposable respirators and dust masks block out airborne particles in emergency situations and dusty work areas. Emergency escape breathing apparatus and escape hoods provide short-term protection from contaminated air so people can evacuate an unsafe area. Fit-testing equipment determines whether a respirator properly fits the user. Respirators and gas masks work with filtration cartridges to supply clean air when working in potentially hazardous environments. SCBA (self-contained breathing apparatus) draws high-quality breathable air from a compressed-air cylinder and delivers it to the attached face mask. PAPR (powered air purifying respirator) pulls surrounding air through a filter and blows the purified air into the attached face mask.

Safety Glasses

Edge Eyewear, Bolle Safety,
Honeywell UVEX, Pyramex,
Condor, Radians, Revision
Military

Safety glasses shield a worker's eyes to prevent eye damage. They block dirt, dust, debris, chemicals, or liquids from entering the eyes. Glasses have lenses that provide visibility. Safety glasses are commonly worn in laboratories, construction or landscaping sites, manufacturing facilities, automotive repair shops, or woodworking environments.

©2020 W.W. Grainger, Inc. W-CTIR133 G0224

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Padlocks

MasterLock, Best, American Lock, Abus

Padlocks secure doors or gates from unauthorized access and lock up equipment to protect valuable items from theft. Heavy-duty cables and cable locks protect equipment, tools, and trailers from theft. Combination locks secure lockers or luggage. Weather-resistant models won't corrode in rain, sleet, or snow, while covered padlocks feature a shroud for added protection and long service life. Padlock guards protect against vandalism and damage from bolt cutters or inclement weather.

Key Control & Identification

Best, Grainger Approved, KABA Ilco, Lucky Line Products, Barska

Key control and identification products manage keys and access to buildings. Key duplicators cut copies of keys. ID printers produce employee identification cards, security badges, and loyalty or gift cards onsite. Locking key cabinets store and secure keys, and key rings, clips, and accessories help organize keys. Lockboxes secure keys to vacant properties.

Video Surveillance

Speco Technologies, LTS, Invid Tech, Tatum, Triplett

Video surveillance systems and accessories deter theft and vandalism and record offenders. Dome and covert cameras install out of sight to record suspicious activity and protect property. Accessories such as wall brackets and camera housings can help to stabilize and protect closed-circuit television (CCTV) systems from outdoor elements.

Security Alarms and Warnings

Linear, Honeywell, Alarm Lock, Detex, Safety Technology International

Security alarms prevent theft and sound warnings in case of emergency. Magnetic door alarms prevent unauthorized use of emergency door exits. Wireless alarm systems and motion detectors protect tools and equipment from theft at a jobsite. Access control transmitters and receivers transmit and receive electronic signals that activate security devices such as doors, cameras, or alarms.

Detectors, Scanners, and Accessories

Barska, Fisher Research, Garrett Metal Detectors, Metal Defender, CEIA, Metrasens

Detectors and scanners screen for potential threats and alert security personnel to the presence of metal or explosives. Metal detectors locate metal in non-invasive body searches, packages, or in the ground or underwater. Explosive detectors identify explosive compounds. Security screening stations use handheld and walk-through metal detectors to enhance safety in a facility. Ground search metal detectors help find lost or hidden items. Carrying cases and tents shield sensitive scanning equipment from sun, rain, or wind.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

<u>Safes</u>	Sentry Safe, Mesa Safe Company, Stack-On, Barska	Safes are locking storage boxes that protect valuable documents and possessions from theft and damage. Floor and wall safes can be mounted permanently in a building. Fire safes can withstand high temperatures and protect important documents. Gun safes secure weapons and ammunition along with paperwork and valuables. Locking medical storage cabinets store medications, narcotics, and patients' belongings.	
<u>Two Way Radios and Police Scanners</u>	Motorola, Banshee, Uniden, 3M, Midland, Cobra	Two-way radios, police scanners, and vessel automatic identification systems are real-time communication devices. Two-way radios allow people to listen and talk to one another across a dedicated radio channel. Police scanners receive communication from law enforcement, fire, and medical emergency services. Vessel automatic identification systems allow boats to receive and transmit identification information such as vessel names and location.	
<u>Power Saws & Blades</u>	Dewalt, Milwaukee, Husqvarna, Dayton, Sawstop, Bosch	Power saws and blades efficiently cut materials such as wood, brick, stone, and metal. Saw blades have a toothed or abrasive edge. They are used in a variety of applications, including woodworking, construction, and metal fabrication. Saw blades are replaced when worn or damaged and are chosen based on the material being cut.	
<u>Cordless Tool Combination Kits</u>	Dewalt, Milwaukee, Makita, Bosch, Porter Cable, Dremel	Cordless tool combo kits each include a variety of power tools with shared, rechargeable battery packs and portable carry cases for jobsite versatility.	
<u>Power Drain Cleaning Equipment</u>	Ridgid, Milwaukee, Westward, Dewalt	Drain cleaning equipment is vital for productivity as well as basic safety and hygiene. Drain gun kits are hand-held devices that quickly clear obstructed pipes. Drain cleaning machines keep plumbing systems clear of clogs.	
<u>Drills & Drivers</u>	Dewalt, Milwaukee, Dayton, Makita, Bosch, Jet, Porter Cable	Drills and drivers provide speed, power, and accuracy when drilling holes and driving fasteners. Coring rigs drill through metal, concrete, block and stone to run electrical conduit and plumbing pipes through walls and floors. Hammer drills deliver a forward hammering action as they drill to power through tough materials, such as stone and masonry. Impact drivers deliver high amounts of torque and power to drive fasteners in tough materials or to loosen stuck screws and bolts. Right angle drills feature a compact design for drilling in tight spaces, such as between wall studs when installing electrical or plumbing lines.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Faucets](#)

Chicago Faucets, T&S Brass, American Standard, Zurn, Delta, Sloan, Symmons, Trident, Moen

Faucets control the flow of water to a sink. They include a spout and hardware for installation, and some faucets come with handles. Bathroom faucets are used for handwashing and grooming tasks. Kitchen faucets are designed for sinks where pots are filled or dishes are washed. Laboratory faucets have tall spouts that can accommodate glassware and lab equipment. Utility sink faucets are used on sinks where tools and equipment are cleaned or other messy tasks are performed. Faucet repair parts are used to maintain your commercial, industrial, and residential faucets and keep them in good working order.

[Toilets, Urinals & Repair Parts](#)

Acorn, Sloan, Zurn, American Standard, Bemis, Grainger Approved, Kissler, Kohler, Fluidmaster

Toilets and urinals remove waste to help maintain sanitary conditions within a building. They include residential and commercial models as well as specialty models for prisons and mental-health facilities. Toilet fixtures (such as tankless toilets, gravity-tank toilets, and pressure-assist toilets) are permanently installed units that connect to water lines for flushing and filling the bowl. Other toilet types (such as portable toilets and macerating toilets) operate without requiring a standard water or waste line connection. Urinals include flushable units that connect to a water supply and waterless units that rely on gravity rather than flushing to drain urine. Toilet repair parts are components such as gaskets, fittings, and flushing mechanisms for restoring function to the various types of toilets and urinals. They're often used by maintenance staff and plumbers to replace broken or worn parts.

[Pipe, Tubing and Fittings](#)

Grainger Approved, Mueller Industries, Anvil, Charlotte Pipe & Foundry, Fernco, Smith-Blair

Pipe, tubing, and fittings carry gas and water in plumbing, A/C, refrigeration, and industrial applications.

[Water Coolers, Dispensers and Fountains](#)

Elkay, Halsey Taylor, Oasis, In-Sink-Erator, Murdock

Water coolers, dispensers, and fountains provide drinking water in work areas and public facilities. Water dispensers provide cold and/or hot water for beverages in breakrooms, cafeterias, waiting rooms, and other public areas. Water chillers are compact, efficient cooling units that connect to bubblers, glass fillers, or cold water dispensers to convert them into water coolers. Drinking fountains are installed in indoor and outdoor public areas to provide a source of clean drinking water for employees, guests, students, residents, and other people. Water filters, drinking fountain parts, and repair kits keep coolers, dispensers, and fountains working.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

Water Heaters

Rheem-Ruud, Rheem, Bosch, Eemax, Grainger Approved

Water heaters provide hot water for homes and other buildings. Electric water heaters have screw-type immersion elements and over-temperature protectors that provide automatic shutoff. Gas water heaters are typically installed in areas where electricity is more expensive than liquid propane (LP) or natural gas. Tankless water heaters provide hot water on demand. Since they are not constantly heating and reheating water in a tank, they are more efficient than water heaters with a storage tank.

Shut-Off Valves

Apollo, Grainger Approved, Milwaukee Valve, Viega Propress, Sharkbite, Nibco, Kissler

Shut-off valves are used to control the flow of air or liquids. Air cocks control the flow of air into a plumbing system or gas line, while drain cocks allow the drain down of water. Water supply stops shut off the water supply to a faucet, toilet, or an appliance such as a washing machine. Water valve kits control the mixing of water, chemicals and inert gases. Check valves prevent backflow from contaminating clean water. Ball valve assemblies are for use with water, oil, and natural gas systems.

Wire & Cable

Southwire, Carol, Romex, Grainger Approved, AFC MC Cables, Tempco

Wire and cable are products that carry an electrical current from a power source to devices and equipment. Wire is characterized by a solid or stranded conductor protected by insulation and/or a jacket. Cable consists of one or more conductors wrapped in a sheath. The sheath binds the inner wires together, and its outer markings indicate the number of wires and size, or gauge (AWG), of wire within the sheathing. The lower the gauge, the thicker the wire, and the greater its capacity for electrical current. The color of the sheathing indicates recommended usages. Wire and cable are used in a wide range of residential, commercial, and industrial applications, including running new circuits inside building walls and ceilings, supplying temporary power to portable tools and equipment, repairing or replacing faulty wiring in automotive components, and extending electrical service underground to sprinkler systems and outbuildings.

Door Hardware

LCN, Grainger Approved, Norton Door Closers, Rockwood, Stanley, National Guard, HES

Door hardware allows doors to open and close so people can pass through an entryway. They may also allow the door to lock in order to restrict access to an area. This hardware includes hinges, locks, deadbolts, door closers, latches, and catches. Door accessories such as door closers, door wedges, door silencers, door sweeps, and lever door holders are used to keep doors open, pull them closed, and otherwise improve the functionality of doors.

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

[Air Conditioners & Accessories](#)

Friedrich, Power Breezer, Frigidaire, Forane, Portacool, Nu-Calgon, Champion

Air conditioners and evaporative coolers provide climate control to keep people comfortable in industrial, commercial, and residential buildings. Air conditioners (also called AC units) use refrigerant to condition the air and are typically used for cooling and dehumidifying hot, humid environments. They include units for cooling only and units with a heat pump for cooling and heating. Evaporative and misting coolers use water to cool and humidify the air in hot, dry environments. Air conditioning accessories are tools, chemicals, and equipment for maintaining, installing, and controlling air conditioners and evaporative coolers. They're used for applications such as providing a stable mount, controlling system operations, recharging refrigerant, managing condensate and runoff, and replacing worn or broken components.

[Air Filters](#)

Air Handler, Koch, Dri-Eaz, Binks

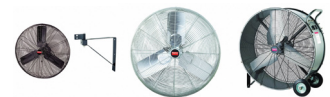

Industrial HVAC air filters are installed in commercial HVAC systems to remove airborne contaminants from the air stream. This helps improve indoor air quality and prevents the build up of contaminants in equipment and damaging it. The Minimum Efficiency Reporting Value (MERV) rating of a filter measures how efficiently it removes contaminants from the air stream based on the size of the particles it can effectively capture. The higher a filter's MERV rating the more effectively the filter traps small particles.

[Cooling Fans](#)

Dayton, Air King, VES, Hunter, Airmaster Fan, Skyblade, Schaefer

Cooling fans and air circulators move air to cool workers and equipment, dry surfaces, and exchange stale air with fresh air. Air circulators and air cannons move high volumes of air in large or open spaces. Axial fans and accessories cool and support cooling of internal electrical components such as computers, vending machines, copy machines, and machine tools. Ceiling fans are ceiling mounted to circulate air vertically, either pulling air from the floor to the ceiling, or moving air from the ceiling to the floor. DC fans use a DC power source, such as those found in vehicles and on agricultural equipment. Residential and office fans cool smaller spaces than air circulators and cannons, including offices, garages, and patios. Transformer cooling fans mount to an electrical transformer to cool transformer radiators.

ONE-STOP SOURCE FOR ALL YOUR CORRECTIONS NEEDS

With over 1.5 million items to choose from, Grainger carries the products, supplies and equipment you need to help get your job done.

HVAC Controls and Thermostats

Johnson Controls, Honeywell, Armstrong, Belimo, Bell & Gossett, Siemens, White Rodgers

HVAC controls include valves, switches, and dampers to regulate temperature, humidity, energy, and pressure systems in commercial HVAC and refrigeration applications. Traditional mechanical thermostats and electronic thermostats control temperature in residential or commercial applications. Wireless Wi-Fi thermostats allow remote monitoring and control of a heating and cooling system and provide you with email alerts via a PC, smartphone, or tablet. HVAC building automation products include controls and room temperature sensors to simplify networked zone control for common HVAC equipment such as packaged rooftop units, air handlers, fan coil units, and heat pumps. Reduce energy costs and conserve resources with control accessories including enthalpy sensors, universal resistor kits, and temperature sensors. Pneumatic damper actuators use air to provide dependable, proportional control of dampers in either independent or sequence operations in heating and cooling applications.

Casters & Wheels

Grainger Approved, Hamilton, Marastar, Colson, Steiner

Casters and wheels are used on equipment such as furniture, machinery, or carts to allow the equipment to roll when it needs to be moved or repositioned. They reduce the effort it takes to move the equipment. Casters each have a wheel that is mounted on an axle and connected to a plate, stem, or other mounting assembly that attaches to the equipment. Wheels have a hole in the center and mount onto the axles or spindles of casters, wheelbarrows, and other material-handling equipment.

Access Ladders, Platforms & Scaffolding

Genie, JLG, Werner, Louisville, Cotterman, Ballymore, Little Giant

Access ladders, platforms, and scaffolding are used to reach high areas in a work site. Ladders allow workers to climb or cross over to a high place. Scaffolding and platforms provide a stable standing surface when working in high areas for extended periods of time.

Motors

Dayton, Century, Marathon Motors, Baldor Electric, Weg, Fasco

Commercial motors and industrial motors are designed to keep specific systems and equipment running, including residential HVAC systems, farm equipment, pumps, and vacuum systems. Motor supplies are used to repair and maintain motors, improve their efficiency, mount them in place, and adapt them for use in specific tasks. Motor speed controls and soft starts help regulate the speed of electric motors for optimal control and performance.

[Shelving and Storage Racks](#)

Grainger Approved, Edsal,
Husky, Metro, Tennsco,
Hallowell

Shelving and storage racks keep tools, materials and other supplies organized and accessible. Bin storage racks, modular units, and pegboard and slatwall organization units are easily modified for changing storage needs. Racks, pallet racks and accessories offer bulk storage and accommodate large items for organizing warehouses and stock rooms. Shelving units provide easily accessible storage for everyday items. Retail displays and accessories showcase merchandise in retail stores.
