

HEALTHCARE WEBINAR

Grainger is proud to present Ellen Taylor speaking about the
**Built Environment Considerations
for Patients with Behavioral &
Mental Health Conditions**

June 4, 2020

2 to 3 p.m. ET 1 to 2 p.m. CT Noon to 1 p.m. MT 11 a.m. to Noon PT

> ABOUT THIS WEBINAR

The challenges created by today's growing mental health and substance abuse crises reach far beyond the behavioral health unit into emergency departments, outpatient clinics and throughout acute care settings.

To support improved care and enhance staff safety, today's design, facility and care professionals have to advance their understanding of design's impact on behavioral healthcare and learn how to incorporate the best and latest design solutions throughout the healthcare setting to improve patient care and safety.

Speaker:
Ellen Taylor,
PhD, AIA,
MBA, EDAC

*Vice President
of Research
Center For
Health Design*

Ellen brings 30 years of experience in architecture, research and business to leading The Center's research team. She is a registered architect and member of the American Institute of Architects who was recognized by Healthcare Design as the HCD10 Researcher in 2017, an award recognizing significant contributions to the industry. A nationally and internationally recognized writer and speaker, she has been influential in guiding Pebble Partner projects and leading grant-funded research programs supported by the Agency for Healthcare Research and Quality (AHRQ), the Kresge Foundation, and the California Health Care Foundation (CHCF), and others.
