## **Scaffolds: General Requirements (Construction)**

**Instructions:** This checklist is intended to help you identify potential hazards in your workplace. The questions are based on applicable Federal OSHA standards. Keep in mind that additional state and local regulations may apply, depending upon your location. Please check one answer for each question. If you select "no," you should investigate further to determine what corrective action may be needed to address the hazard. You can review the specific OSHA Standards outlined below at <a href="https://www.osha.gov/law-regs.html">www.osha.gov/law-regs.html</a>. Choose "General Industry" or "Construction."

	Questions	OSHA Regulation	Yes	No	N/A
	Scaffolds: General Requirements (Construction)				
1)	Are hook-on and attachable ladders designed for the scaffold in use?	1926.451(e)(2)(iv)			
2)	Are hook-on and attachable ladders positioned so the bottom rung is not more than 24 inches above the scaffold supporting level?	1926.451(e)(2)(ii)			
3)	Are ladders, stairs, ramps, or walkways provided to access scaffold platforms more than 2 feet above or below a point of access?	1926.451(e)(1)			
4)	Are portable, hook-on, and attachable ladders positioned to prevent the scaffold from tipping?	1926.451(e)(2)(i)			
5)	Do hook-on and attachable ladders have rung length of at least 11 1/2 inches?	1926.451(e)(2)(v)			
6)	Do ramps and walkways 6 feet or more above lower levels have guardrails?	1926.451(e)(5)(i)			
7)	Do stairway-type ladders have rest platforms at 12 foot maximum vertical intervals?	1926.451(e)(3)(ii)			
8)	Do stairway-type ladders have slip-resistant treads on all steps and landings?	1926.451(e)(3)(iv)			
9)	During erecting and dismantling of supported scaffolds, are hook-on or attachable ladders installed as soon as they can be used safely?	1926.451(e)(9)(ii)			

## **Scaffolds: General Requirements (Construction)**

	Questions	OSHA Regulation	Yes	No	N/A
	Scaffolds: General Requirements (Construction)				
10)	During erecting and dismantling of supported scaf- folds, does a competent person provide and evaluate safe means of access?	1926.451(e)(9)(i)			
11)	During erecting and dismantling of supported scaf- folds, is it prohibited to use the cross braces on tubular welded frame scaffolds for access or exit?	1926.451(e)(9)(iv)			
12)	Is the bottom step of stairway-type ladders 24 inches or less above the scaffold supporting level?	1926.451(e)(3)(i)			

Safety Checklist Disclaimer: This safety checklist (the "Material") is made available to the user or other receiver of the Material for general informational purposes only. The Material has been developed with consideration of various factors relevant to the subject area, including federal laws and regulations in effect at the time the Information was created and/or certain good management practices relevant to the subject area. Because every industry and/or workplace presents unique circumstances, the Material does not constitute and is not intended to provide specific advice, assurances, or guarantees concerning any user's compliance with particular regulatory requirements (e.g., OSHA) or other applicable safety and/or health requirements or good management practices. The Material does not constitute training and does not replace the need to properly train all employees nor is the Material a substitute for an assessment of any safety or health hazards present at your facility by a health or safety professional or expert. Users are advised to consult with a legal or other professional advisor concerning specific regulatory compliance requirements applicable to their workplaces and appropriate use of the Material. Users and receivers of the Material are subject in all respects to the terms and conditions set forth www.grainger.com, including those provisions relating to limitation of liability.
