## Business Continuity and Recovery Planning

**July 7, 2020**

2 to 3 p.m. ET 1 to 2 p.m. CT Noon to 1 p.m. MT 11 a.m. to Noon PT

### > ABOUT THIS WEBINAR

A Business Continuity Plan (BCP), also known as a Continuity of Operations Plan, is an all-hazards roadmap to follow in case of a major or extended interruption to operations. A properly prepared BCP addresses how organizations will maintain or resume critical functions and the reconstitution of key operations at an alternate site if required.

#### Learning Objectives:

- Identify, document and implement steps to recover critical business functions and processes.
- Review best practices on how to organize a business continuity team and compile a plan to manage a business disruption.
- Discuss best practices on how to develop an After-Action Report and Improvement Plan (AAR/IP) to prepare your organization for future emergencies and disasters.
