

# TEAM OF SAFETY PROFESSIONALS

**Count on our team of experienced professionals** for help selecting products, complying with safety regulations and implementing new safety initiatives. On the phone or in the field, they have the education and training to help answer your questions.

## TECHNICAL SUPPORT

Our dedicated safety product technical support team will help direct you to the right services and solutions to fit your needs. We can help answer a variety of your questions, including:

- Pre- and post-application questions related to EH&S products and equipment
- Chemical compatibility
- Compliance questions: OSHA, ANSI, ASTM, NFPA
- Much more

## ON-SITE SAFETY HELP

Our purpose is to keep the world working safely and sustainably. We strive to be the trusted safety partner for people who build and run safe, sustainable and productive operations. Our safety professionals have the expertise to provide strategic recommendations, on-site assessments, product consultation and turnkey safety solutions.

## SAFETY PROFESSIONAL CERTIFICATIONS

- Board-certified CSPs, ASPs, OHSTs, SMSs and STSs as conferred by the Board of Certified Safety Professionals (BCSP)
- Qualified Safety Sales Professionals (QSSPs) certified by the International Safety Equipment Association (ISEA)
